Particulars	Observation
Available capital before the trade	1,00,007.37
Trade value/Capital committed	1,00,000 (Approx.)
Trade outcome	Loss
Realised profit/loss	8
Capital remaining after the trade	1,00,008.95
Effect of the trade on available capital	Very small decrease in capital
Was a significant portion of available capital committed to the trade?	No. Only a small portion of the available capital was used.
Capital management observation	The trade used a small amount of capital, so the risk to the overall account was low.
Key learning from capital analysis	Small trade sizes help control losses and protect the overall trading capital.
